

# MEMORANDUM

**TO: ALL ARB STATE OFFICES & OME FITTERS**

**FROM: Mark de Prinse**

**DATE: 10/06/19**

**SUBJECT: PIB # 994 Leaf Spring Service Parts Update**

During some recent Leaf Spring development the OME engineers have made some updates to the Leaf Spring service parts. All new parts are compatible with existing Leaf spring part numbers and service part requirements by part number can be found in the attached Leaf Spring Specification attachment. Video fit tips have been created and links can be found in the comments section.

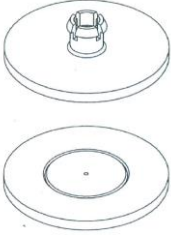

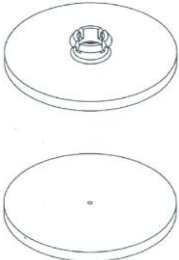

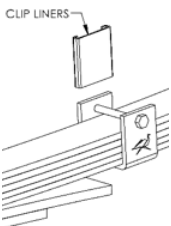

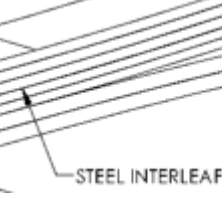

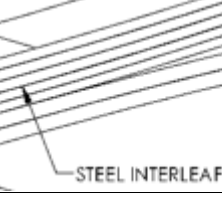

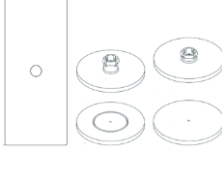

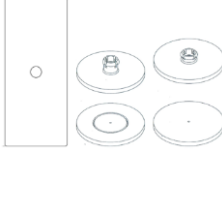

IMAGE	PART #	DESCRIPTION	COMMENT
	SRBC60A	Interleaf Liner HDPE Long	<ul style="list-style-type: none"> <li>• New design with less surface grooves, provides more surface area for better wear and durability</li> <li>• New material which is more durable</li> <li>• New retention clip. SRBC60A has a long clip to go completely through leaf and retain on underside of leaf. This liner is used when there is no leaf underneath covering the retention clip</li> </ul> <p><b>VIDEO LINK</b> <a href="https://wi.st/2VDDY6R">https://wi.st/2VDDY6R</a></p>
	SRBC60B	Interleaf Liner HDPE Short	<ul style="list-style-type: none"> <li>• New design with less surface grooves, provides more surface area for better wear and durability</li> <li>• New material which is more durable</li> <li>• New retention clip. SRBC60B has a short clip which engages inside the hole of the leaf. This liner is used when there is a leaf underneath covering the retention clip and hole</li> </ul> <p><b>VIDEO LINK</b> <a href="https://wi.st/2VDDY6R">https://wi.st/2VDDY6R</a></p>
	ELSK01	Leaf Spring Liner Kit	<ul style="list-style-type: none"> <li>• Clip Liners can become worn, particularly if clips are knocked in service or high articulation applications</li> <li>• EL Leaf Springs Clips can be serviced by using ELSK01. For CS Springs refer to Leaf Spring Specifications Section</li> </ul> <p><b>VIDEO LINK</b> <a href="https://wi.st/2JP4YOM">https://wi.st/2JP4YOM</a></p>
