**AVAILABILITY DATE:**

April 2014

# PRODUCT SPECIFICATION

## DESIGN & DEVELOPMENT:

As more vehicle manufacturers have moved to an independent coil over strut front suspension set up, demand has increased for aftermarket replacement bushes and components. Old Man Emu have now developed a range of complete Top Hat kits (strut bearing plates, bushes and washers) for the most popular fitments to accommodate the demand.

Old Man Emu engineers have developed a complete replacement Top Hat solution which incorporates all required components to fully replace the original Strut Top hat. This includes a new bearing plate, high duro rubber isolator, rubber bushes, washers, crush tube (if applicable) and mounting nuts. All components are to the original equipment specifications and are a straight forward bolt in solution.

## APPLICATION TABLE:

Part Number	Description	Vehicle Application	Barcode
OMETH001	Top Hat Triton ML on – one side only	Mitsubishi Triton ML & MN Mitsubishi Challenger 2010 on	9332018027382
OMETH002	Top Hat Hilux 05 on – one side only	Toyota Hilux 05 on Toyota Prado 150 Toyota Prado 120 Toyota FJ Cruiser Toyota Fortuner Toyota 4 Runner Toyota Tacoma	9332018027399
OMETH003	Top Hat Land Cruiser 200 series – one side only	Toyota 200 series Toyota Tundra	9332018027405
OMETH004	Top Hat Dmax / Colorado – one side only	Holden Colorado 2012 on Isuzu Dmax 2012 on	9332018027412
OMETH005	Top Hat Navara D40 – one side only	Nissan Navara D40 2005 on Nissan Pathfinder R51 2005 on	9332018027429
